	27,138,256	517,320	10,450,504	(9,488)	38,096,593

La Victoria, Peru
The Company owns an 82% interest in La Victoria (March 31, 2022 - 82%), a gold-silver property covering 8,933 hectares, consisting of 9 concessions covering 3,533 hectares (Ccori Orcco 1, Roberto N°1, Rufina, Rufina N° 2, San Felipe 1, San Felipe 2, San Markito, Santa Ana 1 and Victoria-APB) and 7 claims covering 5,400 hectares (Romina 01, 02, 03, 04, 05, 06 and 07) in the Huandoval District, Pallasca Province, Ancash Department, in the North-Central Mineral Belt of Peru.

Burgundy Diamond Mines Limited ("BDM") owns an 18% interest in La Victoria and had an option to increase its interest to 25% ("Option"). In August 2021, BDM decided to maintain its interest at 18% and not to increase its interest to 25%, at which time, the Option expired and a joint venture, with the Company as operator, was formed to continue to explore and develop La Victoria.

If the Company or BDM does not fund its proportionate share of expenditures, its respective interest will be diluted and when its interest is diluted to less than 10%, the party's interest shall be reduced to a 2% net smelter royalty on all production. The other party will have the option to reduce the royalty from 2% to 1% by making a payment of $3,000,000.

If either the Company or BDM acquires an interest in any property within 5 kilometres of La Victoria, the acquirer must offer the other party the opportunity to participate in the acquisition up to its participating interest.

In the event the Company or BDM proposes to sell any interest in La Victoria to a third party, the other party has a right of first refusal to match the terms and conditions of the proposed sale. In the event that the Company proposes to sell a majority of its interest in La Victoria to a third party, the Company must first consult with BDM about the identity of the third party and the proposed terms of sale and if the Company proceeds with the sale, BDM will be obliged to sell its interest to the third party on a pro rata basis in accordance with the terms of the sale to the third party.

La Victoria is subject to a 2% net smelter royalty ("NSR"). The Company has the option to reduce the NSR to 1% by making a payment of $3,000,000.

Iska Iska
The Company owns a 98% interest in Minera Tupiza which has an option to acquire a 99% interest in Iska Iska, a polymetallic property consisting of one mineral concession totaling 900 hectares located in Bolivia. The Company also has a option to increase its interest in Minera Tupiza to 99% (see note 4, *Option payment advance*). On October 14, 2020, the Company staked 9 additional properties covering 31,175 hectares.

In order to acquire its interest in Iska Iska, the Company will conduct an exploration and development program in the 4 years ended January 6, 2024, issue common shares and make an option payment, as follows:

	Common shares		**Option payment**
	Number	**$**	**US$**
February 5, 2020 (issued)	250,000	100,000	–

January 6, 2024	–	–	10,000,000
	500,000	350,000	10,000,000

At September 30, 2022, the Company has made instalment payments of US$3,400,000 (December 31, 2021 US$3,000,000) on account of the Iska Iska option payment.

See note 14, *Subsequent event, Iska Iska option payment*.

Stock options

The shareholders of the Company approved a new Long-term Incentive Plan (the "Plan") at an annual and special meeting held on September 27, 2022. The Plan is currently awaiting TSX Venture Exchange approval. Upon the implementation of the Plan, all previously issued stock options and restricted share unit awards, which were granted pursuant to the Company's stock option plan and Restricted Share Unit Plan respectively, will be governed by the Plan. The Plan permits the Board to make awards of stock options, restricted share units, performance share units and deferred share units. The maximum number of common shares for issuance under the Plan for stock options will not exceed 10% of the Company's then issued and outstanding shares. The maximum number of common shares for issuance under the Plan for all other awards other than stock options will not exceed 10% of the Company's issued and outstanding shares at the time of shareholder approval of the Plan.

The number of the common shares subject to each stock option grant, exercise price, vesting, expiry date and other terms and conditions are determined by the Board. The exercise price shall in no event be lower than the market price of the common shares on the grant date. Stock options shall be for a fixed term, not exceeding five years and unless otherwise specified, each stock option shall vest as to one third on each of the first through third anniversaries of the grant date

A summary of the Company's stock options outstanding and exercisable at September 30, 2022 is presented below:

On July 26, 2017, the Company received refundable tax credit notices of assessments from Revenu Québec for the repayment of $367,360 (“Notices”) for the return of refunds of $280,961, $25,217 and $7,766 received by the Company for the refundable tax credit on eligible exploration expenditures incurred in Québec in respect of 2013, 2014 and 2016, respectively and interest thereon of $53,416.

The Company filed notices of objection with respect to the Notices and pending resolution of the Notices, the Company made payments of $5,000 per month to Revenu Quebéc which were recorded in the consolidated statement of loss and comprehensive loss.

On August 5, 2022, the Company received notices of reassessment from Revenu Québec with respect to the Notices which reduced the amounts required to be repaid to $20,856 and resulted in the Company receiving a refund of $156,747.

9. Determination of fair values

A number of the Company's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

Accounts payable and accrued liabilities

The fair value of accounts payable and accrued liabilities approximates its carrying value due to their short term to maturity.

Classification of fair value of financial instruments

The Company classified the fair value of its financial instruments measured at fair value according to the following hierarchy based on the amount of observable inputs used to value the instrument:

- Level 1 - quoted prices in active markets for identical assets and liabilities;
- Level 2 - inputs, other than the quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly;
- Level 3 - inputs for the asset or liability that are not based on observable market data.

Marketable securities are measured at fair value at Level 1 of the fair value hierarchy.

10. Financial risk management

The Company's activities expose it to a variety of financial risks that arise as a result of its exploration, development, production and financing activities, including credit risk, liquidity risk and market risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included throughout these consolidated financial statements.

The Board of Directors oversees management's establishment and execution of the Company's risk management framework. Management has implemented and monitors compliance with risk management policies. The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to market conditions and the Company's activities.

Credit risk

Credit risk is the risk of financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations. Credit risk arises principally from the Company’s cash balances. The maximum exposure to credit risk is equal to the balance of cash.

The Company’s limits its exposure to credit risk on its cash by holding its cash in deposits with a Canadian chartered bank.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting its financial liabilities that are settled in cash or other financial assets. The Company’s approach to managing liquidity risk is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities as they come due. The amounts for accounts payable and accrued liabilities are subject to normal trade terms.

The Company has no revenues and relies on financing primarily through the issuance of equity to finance its on-going and planned exploration activities and to cover administrative costs.

Market risk
Market risk is the risk that changes in market prices, such as equity prices, foreign exchange rates, and interest rates will affect the Company's income or the value of its financial instruments. The Company is exposed to equity price risk with respect to marketable securities. The Company's approach to managing equity price risk is to optimize the return from its marketable securities within acceptable parameters for equity price risk. The Company estimates that if the fair value of its marketable securities as at September 30, 2022 had changed by 10%, with all other variables held constant, the unrealized gain (loss) would have decreased or increased by $2,070.

Interest rate risk
The Company's exposure to interest rate risk is limited due to the short-term nature of its financial instruments and the Company has no interest-bearing debt.

Capital management
Capital of the Company consists of share capital, warrants, contributed surplus, foreign currency reserve and deficit. The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern so that it can acquire, explore and develop mineral resource properties for the benefit of its shareholders. The Company manages its capital structure and makes adjustments based on the funds available to the Company in light of changes in economic conditions. The Board of Directors has not established quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain the future development of the Company. In order to facilitate the management of its capital requirements, the Company prepares annual expenditure budgets that consider various factors, including successful capital deployment and general industry conditions. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

The Company's principal source of capital is from the issue of common shares. In order to achieve its objectives, the Company intends to raise additional funds as required.

The Company is not subject to externally imposed capital requirements and there were no changes to the Company's approach to capital management during the year.
